I am sorry not to be able to attend tonight's meeting but please rest assured that I will certainly be taking up residents' objections to this particular development.

I strongly support the preservation of the Green Belt and I have made my views clear to Sevenoaks District Council including its Leader, Cllr Peter Fleming. Because the Local Plan is required from the Council, a large number of proposals for new housing have come forward. Most of these will impact on the Green Belt and would impose unnecessary pressure on the surrounding infrastructure.

When I visited the Fawkham area in July, I was made very aware of the strength of feeling about the impact of any new development on traffic and on local services. It is essential that those concerns are fully taken into account by the Council when this particular proposal is considered.

I will continue to forward any further objections direct to the Leader of Sevenoaks District Council.

With all best wishes,

*M*ichael *F*all *l*on
